Dear Graduates of 1988:

Congratulations to you as you reach this newest milestone — your high school graduation.

As we look back over your four years at Mt. St. Joseph Academy, there has been much sadness and much joy. In the sadness of the deaths we have faced, there has been the need to reach deep within ourselves and community to find the strength, hope and support to endure. You did reach deep and you did endure. Due to free will the pain was ours even as God's Spirit remained our strength in those very difficult moments.

The happier days of academic achievement, dramatic and athletic championships, which have been so prominent in your high school days, have taught valuable lessons of hard work and success.

May the values and lessons which you have learned here go with you.

May the ability to cry and to laugh continue to be yours as you journey through life.

Mt. St. Joseph Academy has been richer for your presence. Let our world feel the warmth of your love.

Love and prayer,

Sister Shirley

Dedication

Janet Baker and Tim McCue have devoted countless hours to our class, and for this we are eternally grateful. As moderators of our Student Senate they have overseen events such as dances, the Walk-a-Thon, Project Help and Spring Fling. By working at these events, these past four years, they have watched us mature and we have learned much by their fine example.

Mrs. Baker has taught us the French language and culture in a creative and organized manner. She has taught us to be responsible and respectful young adults.

Mr. McCue has taught us Biology in an innovative and inventive style. He has taught us to be observant and accurate in the laboratory.

They are not merely teachers and advisors, they are our friends. Mrs. Baker and Mr. McCue, we, the class of 1988, thank you both for everything you have done for us. We will cherish fond memories of you forever and are proud to dedicate our yearbook, *The Mount 1988*, to both of you.

THE STORY OF A CLASS

Young and wild we all started out
We thought we knew what life was about
There were parties and games too
But no one really knew who was who
And just when things were lookin' fine
A friend called Bender lost his mind
He took his life in his hands
And joined his God in other lands
After this people grew
Started to know who was who
Grief remained quite a while
Little we knew it would hold its style
Then things started looking up again
But as we turned a new leaf — then
Another Jason would lose his life
But not by choice did he lose his fight

We loved each other through the days
We listened to what each had to say
Apparently we didn't love enough
For another in our class life was too tough
So to yet another Jason we said goodbye
Around then we thought it was one big lie
Three Jasons all gone forever
Them and their families we remember
Many people helped us cope
For quite a while we lost hope
Then when things started looking bright
We lost — we hope — our last fight
A junior named Phil made up his mind
That it was time to leave us behind
Half the year has passed us by
We don't want anyone else to die

Things go on day by day
People don't know what else to say
But hold your head high and stand tall
Pick yourself up when you fall
This isn't a story of only grief
It's of a class turning a ten-ton leaf
We have slowly healed those ugly scars
We will all reach for the highest stars
We grew together each and every year
We needed each other to conquer our fears
We are now adults and almost free
We love each other equally
This last semester will quickly pass
To end the story of a class.

In Living, Loving Memory Jason Bender & Jason Brothers

Jason Brothers was a very special friend to all who knew him. He touched many of our lives in his own special way. He was never one to really open up and let others know what he was feeling but if he had it probably would have gone something like this:

"It's getting to the point where I am no fun anymore, I am sorry. Sometimes it hurts so badly I must cry out loud. I am lonely. Remember what we've said and done and felt about each other; if we have mercy, don't let the past remind us of what we are not now. You make it hard. Tear yourself away from me now; you are free and I am crying; this does not mean I don't love you, I do and that's forever!"

For those of us who loved him, we can keep a part of him alive forever by remembering the fun times that we shared together. Rest in peace, my brother.

Jason Bender was a loving, caring person, who tried hard to make sure that the people around him always had fun. Through all the happiness he brought to us, we never saw the terrible pain that was eating away at him. Try as he did, he just couldn't seem to find a happiness in this life. Rest in peace, my friend, for I shall never forget the awesome times that we shared together.

"There is a road, no simple highway, between the dawn and the dark of night and if you go no one may follow; that path is for your step alone."

*Quality starts
with our people*

Every day, thousands of pilots around the world depend on our people and their attention to the aircraft engines they work to produce.

It's the people who work at Rutland's GE who keep us on top. Their dedication, pride, and teamwork combine to make us the premier manufacturers of precision airfoils for military and commercial aircraft engines in the world.

GE Aircraft Engines

Success

It's not the amount of gold you have,
Or the many acres that you own,
It's not the mansion that you may have
That spells success in your home.

It's the little things you do each day ...
The kind word you have spoken;
It's helping the one who is down and out
And healing the heart that is broken.

It's doing the job the best you can;
It's the loving and giving in life;
It's keeping your eye on higher things
And your chin up in every strife.

If you are the kind that wants to succeed,
Just try to help those in distress;
A life that is clean — a heart that is true
And DOING YOUR BEST — that's SUCCESS!

Congratulations to the class of '88 and especially to our two seniors Heather and Ben. The foundation has been well laid for future success. We hope the idealism expressed by Robert Muller through his work at the U.N. will find meaning for you.

From "Most of All They Taught Me Happiness":

"All things are transient on this earth, be it power, glory, wealth, and even entire civilizations. All we can do is to put our full love into our lives, professions, and families, making a work of art of the few precious years that are granted to us.

"Dreams, after all, are still possible in our seemingly hard, materialistic world. Have a dream and believe in it. Strong dreams always come true.

"In order to model a happy and beautiful world, we must believe in it; we must work at it; we must be in love with it; we must reach out for highest levels of peace, justice, beauty, and happiness; we must encourage each other in this task, individual to individual, nation to nation, race to race, culture to culture, continent to continent.

"Sing, laugh, talk, pray, sit down in a church, confess to a priest, and talk to God, and thank him for all the good things you have."

Lovingly,
Ben and Claudette Lawton

After months of confusion, frustration, and general chaos, the 'Mount' '88 is complete.

The staff would like to thank Mark Saks, our Josten representative, Gary Bouchard, Miss Robinson's fifth period study, and Mr. Kelley and Miss Canary for all of their assistance.

A very special thank you goes to our new advisor, Mrs. Jarvis, for her countless hours of work.

Finally, I wish to express great thanks to my staff. Without your dedication, this yearbook would never have come together.

I can only hope that within these pages there lies fun, laughter, and happy memories for all.

Your Editor,

Andrea Justin
